Education

Thakur College of Engineering and Technology
B.Tech in Artificial Intelligence and Data Science

2026
8.19 CGPA

Skills

Languages: Java, JavaScript, TypeScript, HTML, CSS
Frameworks/Libraries: ReactJS, Next.js, SpringBoot, Tailwind CSS
Tools: Git, GitHub, VS Code, Figma, MySQL, MongoDB, Vercel, Netlify, Canva, Power BI
Creative and Soft Skills: UI/UX Design, Video Editing, Photo Editing, Poetry, Sketching

Work Experience

Vighnotech

Feb 2025 – June 2025

Frontend Developer Intern

On-site

- Developed lightweight, SEO-optimized, and user-friendly websites using **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Contributed to Enterprise Resource Planning software development by building **reusable frontend components** such as dynamic data tables, interactive forms, and email integration features to streamline workflows.
- Enhanced website performance and user experience by optimizing code structure, implementing lazy loading, and improving Lighthouse scores **up to 80%** across multiple projects.
- Implemented optimized landing pages and blog templates, resulting in **increased user interaction and conversion rates**.

EliteTech

Dec 2024 – Jan 2025

Frontend Developer Intern

Remote

- Built responsive websites with **ReactJS** and **TailwindCSS**, ensuring **cross-device compatibility** and seamless navigation.
- Implemented frontend components, layouts, and performance optimizations, improving **load times and overall user engagement** across multiple projects.

Projects

WebGames | *ReactJS, Vite, Clerk, TailwindCSS* | [GitHub](#) | [Live](#)

- Developed a retro-themed web platform offering multiple **mini-games** with engaging visuals and immersive sound effects.
- Applied secure **Clerk authentication** with dynamic point tracking and protected routes for personalized gameplay.
- Optimized for **cross-device responsiveness**, ensuring seamless performance and user experience across all devices.

BookCircle | *ReactJS, TailwindCSS, REST API, SpringBoot* | [GitHub](#) | [Live](#)

- Developed a **full-stack e-commerce platform for pre-owned books**, encouraging sustainability in reading.
- Built a clean, responsive UI/UX with **cross-device compatibility** and integrated Google APIs for books data.
- Engineered the backend with **SpringBoot RESTful APIs**, implementing authentication and **profile management**.

UrStore | *ReactJS, Vite, Botpress* | [GitHub](#) | [Live](#)

- Built a feature-rich **e-commerce platform** with modern design principles and a strong focus on accessibility.
- Designed a scalable **routing system** with dynamic data handling and responsive layouts for seamless navigation.
- Designed an **intuitive shopping interface**, integrating a smart **chatbot** to assist users and enhance engagement.

Leadership & Involvement

- Contributed to **Hacktoberfest 2024** with **5+ merged PRs**, showcasing collaborative open-source development and Git workflows.
- Solved **200+ Data Structures and Algorithms** questions using Java language.
- Produced **20+ technical concept videos** for **Shashtra Coding Club & S4DS Club**, combining engaging narration with visuals.
- Served as lead editor for **Pragyaan** (Department magazine), managing content creation and student story development.
- Successfully qualified for the college-level **Smart India Hackathon**, leading website development and UI/UX efforts.
